Portfolio Partners Dividend Builder

Directors' Report

The Directors of Portfolio Partners Limited (ABN 85 066 081 114), the Responsible Entity of the Portfolio Partners Dividend Builder ("the Scheme") present their report together with the financial statements of the Scheme for the year ended 30 June 2008 and the auditor's report thereon.

Directors

The Directors of Portfolio Partners Limited during the financial year and until the date of this report are:

Craig Bingham

Anthony Burrill

David Daynes

Allan Griffiths

Christopher Oglethorpe

David Watson (resigned 28/08/2007)

The Directors were in office from the beginning of the financial year until the date of this report, unless otherwise stated.

Principal Activities

The investment activities of the Scheme continued to be in accordance with the investment policy of the Scheme as outlined in the Scheme Constitution. The key asset categories are Australian equities and managed investment schemes.

There has been no significant change in the nature of this activity during the year.

Scheme Information

Review of Results and Operations

Results and distributions

The net loss attributable to unitholders for the year ended 30 June 2008 was \$10,716,212 (2007: \$8,044,764 profit). Distributions to unitholders during the year totalled \$1,920,108 (2007: \$2,725,219).

A final distribution was declared for the year ended 30 June 2008 of 0.73 cents per unit (2007: 4.05 cents per unit), paid on 4 July 2008. The total amount not paid at the reporting date is disclosed in the Balance Sheet.

Performance

The performance of the Scheme over the past five years is summarised in the following table:

	2008 %	2007 %	6 months to 30/06/2006 %	2005 %	2004 %
Growth return	(28.54)	20.67	1.05	n/a	n/a
Distribution return	3.62	9.82	3.19	n/a	n/a
Total return	(24.92)	30.49	4.24	n/a	n/a
Benchmark return	(26.15)	29.23	5.87	n/a	n/a

The growth return is calculated as the return derived by a unitholder due to changes in capital value over the period. The distribution return is the return derived by a unitholder due to distributions paid by the Scheme. The total return is calculated after fees and assuming reinvestment of distributions, in accordance with IFSA Standard 6: *Product Performance – Calculation of Returns*.

Indirect Cost Ratio

The Indirect Cost Ratio (ICR) is the ratio of the Scheme's management costs over the Scheme's average net assets attributable for the year, expressed as a percentage.

Management costs include management fees and other expenses or reimbursements deducted in relation to the Scheme, but do not include transactional and operational costs such as brokerage. Management costs are not paid directly by the unitholders of the Scheme.

The ICR for the Scheme as at 30 June over the past two years is disclosed below:

	2008 %	2007 %
Indirect Cost Ratio as at 30 June	0.60	0.60

Directors' Report (continued)

Significant changes in the state of affairs

There were no significant changes to the state of affairs of the Scheme during the year, other than those changes identified in the financial statements for the year ended 30 June 2008.

Significant events after the balance date

There has been no matter or circumstance that has arisen since the end of the financial year that has significantly affected, or may significantly affect, the Scheme's operations in future financial years, the results of those operations or the Scheme's state of affairs in future financial years.

Likely developments and expected results

During September 2008, Portfolio Partners will change its company name to Aviva Investors Australia, and the Responsible Entity will also change to Aviva Investors Australia. As a result, the Scheme will be called the 'Aviva Investors Dividend Builder'. These changes will not impact the Scheme's operations.

Environmental regulation and performance

The operations of the Scheme are not subject to any particular or significant environmental regulation under a law of the Commonwealth or of a State or Territory. There have been no known significant breaches of any other environmental requirements applicable to the Scheme.

Indemnification and insurance of Directors and Officers

Indemnification

Under the Scheme Constitution, the Responsible Entity, including its officers and employees, is indemnified out of the Scheme's assets for any loss, damage, expense or other liability incurred by it in properly performing or exercising any of its powers, duties or rights in relation to the Scheme.

Insurance premiums

During or since the financial year, the Responsible Entity has paid premiums in respect of a local Directors and Officers Liability contract insuring all directors and officers of Portfolio Partners Limited. The amount of the premium is, under the terms of the insurance contract, confidential.

During or since the financial year, the ultimate parent company of the Responsible Entity, Aviva plc, has paid premiums in respect of a global Directors and Officers Liability contract insuring all directors and officers of Portfolio Partners Limited. It is not practicable to apportion the global premium to specifically attribute an amount of premium to Portfolio Partners Limited.

No insurance premiums are paid out of the Scheme assets in relation to insurance cover for the Responsible Entity, its officers and employees, the Compliance Committee or the auditors of the Scheme.

Directors' Report (continued)

Rounding

The amounts contained in this report and in the financial report have been rounded under the option available to the Scheme under ASIC Class Order 98/0100. The Scheme is an entity to which the Class Order applies, and in accordance with the Class Order, amounts in the Directors' Report and the Financial Report have been rounded to the nearest thousand dollars (where rounding is appropriate).

Signed in accordance with a resolution of the Directors.

Notes to the Financial Statements

1. CORPORATE INFORMATION

The financial report of Portfolio Partners Dividend Builder for the year ended 30 June 2008 was authorised for issue in accordance with a resolution of Directors of the Responsible Entity on 25 September 2008.

The Portfolio Partners Dividend Builder is an Australian registered Scheme, constituted on 3 August 2005. Portfolio Partners Limited, the Responsible Entity of the Scheme, is incorporated and domiciled in Australia. The registered office of the Responsible Entity is located at Level 28 Freshwater Place, 2 Southbank Boulevard, Southbank, Victoria 3006.

The nature of the operations and principal activities of the Scheme are described in the Directors' Report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

This financial report is a general purpose financial report, which has been prepared in accordance with the Scheme Constitution and the requirements of the Corporations Act 2001, and Australian Accounting Standards.

The financial report has been prepared in accordance with the historical cost convention, except for the valuation of investments in financial assets which have been measured at fair value.

The Balance Sheet is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and net assets attributable to unitholders. The amount expected to be recovered or settled in relation to these balances cannot be reliably determined.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated under the option available to the Scheme under ASIC Class Order 98/100. The Scheme is an entity to which the Class Order applies.

(b) Statement of compliance

The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

(c) Investments in financial assets

Purchases and sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place are recognised on the trade date ie. the date that the Scheme commits to purchase or sell the asset.

Investments and financial assets in the scope of AASB 139 Financial Instruments: Recognition and Measurement are categorised as either financial assets at fair value through profit and loss, loans and receivables, held to maturity investments, or available for sale assets. The classification depends on the purpose for which the investments were acquired. Designation is re-evaluated at each financial year end, but there are restrictions on reclassifying to other categories.

Notes to the Financial Statements (continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Investments in financial assets (continued)

Designated as at fair value through profit or loss

All investments are initially recognised at fair value, being the fair value of the consideration paid excluding transaction costs. After initial recognition, the financial assets designated as at fair value through profit or loss are revalued to fair value at each reporting date.

For investments that are actively traded in organised financial markets, fair value is determined by reference to exchange quoted market bid prices at the close of business on the Balance Sheet date.

For investments where there is no quoted market price, fair value is determined by reference to the current market value of another instrument which is substantively the same or is calculated based on the expected cash flows of the underlying net asset base of the investment.

Movements in fair value on investments designated as at fair value through profit or loss are recognised in the Income Statement.

Investments of the Scheme that have been designated as at fair value through profit or loss include certain interest bearing securities that are not held for trading but for which there is no positive intention to hold to maturity.

These investments have been designated as at fair value through profit or loss as doing so results in more relevant information. These investments are part of the full group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Scheme, as disclosed in Note 11.

(d) Derivative financial instruments

The fair value of forward exchange contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. The fair value of share price index futures are determined by reference to market values for similar instruments. All derivatives do not qualify for hedge accounting.

(e) Revenue and income recognition

Revenue is recognised and measured at fair value of the consideration received or receivable to the extent it is probable that the economic benefits will flow to the Scheme and the revenue can be reliably measured. The following specific recognition criteria must also be met before income is recognised:

Dividends and distributions

Revenue is recognised when the right to receive the payment is established.

Interest

Revenue is recognised as interest accrues, (using the effective interest rate method which is the rate that discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

Notes to the Financial Statements (continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Revenue and income recognition (continued)

Changes in the fair value of investments

Net gains or losses on investments designated as at fair value through profit or loss are calculated as the difference between the fair value at sale, or at year end, and the fair value at the previous valuation point. This includes both realised and unrealised gains and losses, but does not include interest or dividend income.

(f) Cash and cash equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at bank, deposits at call with a futures clearing house and short term deposits with an original maturity of three months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

(g) Trade and other receivables

Receivables are recognised and carried at original amounts, and an estimate for doubtful debts is made when an amount is no longer probable. Trade and other receivables include accrued dividends, distribution income and accrued income on interest-bearing securities from the date the security is quoted ex-coupon. Sales of investments are recorded on trade date and normally settle within three business days. Sales of securities and investments that are unsettled at reporting date are included in trade and other receivables.

(h) Trade and other payables

Liabilities for payables are carried at cost, which is the fair value to be paid for goods and services received, whether or not billed to the Scheme. Trade and other payables include accrued expenses and distributions payable owing by the Scheme which are unpaid as at balance date.

Purchases of investments are recorded on trade date, and normally settle within three business days. Purchases of securities and investments that are unsettled at reporting date are included in trade and other payables.

(i) Taxation

Under current legislation, the Scheme is not subject to income tax provided the unitholders are presently entitled to the income of the Scheme and the Scheme fully distributes its net taxable income.

(j) Distributions

In accordance with the Scheme's Constitution, the Scheme fully distributes its distributable income to unitholders. Such distributions are determined by reference to the net taxable income of the Scheme. Distributable income includes capital gains arising from the disposal of investments. Unrealised gains and losses on investments that are recognised as income are transferred to net assets attributable to unitholders and are not assessable and distributable until realised. Capital losses are not distributed to unitholders but are retained to be offset against any realised capital gains.

Notes to the Financial Statements (continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Unit prices

Unit prices are determined in accordance with the Scheme's Constitution and are calculated as the net assets attributable to unitholders of the Scheme, less estimated costs, divided by the number of units on issue, on a forward pricing basis, determined by the Responsible Entity.

(l) Terms and conditions on units

Each class of unit issued confers upon the unitholder of each class an equal interest in that particular class in the Scheme, and is of equal value. A unit does not confer any interest in any particular asset or investment of the Scheme. Unitholders have various rights under the Constitution and the Corporations Act 2001, including the right to:

- have their units redeemed;
- receive income distributions;
- attend and vote at meetings of unitholders; and
- participate in the termination and winding up of the Scheme.

The rights, obligations and restrictions attached to each unit are identical in all respects.

(m) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

Reduced input tax credits (RITC) recoverable by the Scheme from the Australian Taxation Office (ATO) are recognised as a receivable in the Balance Sheet.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

(n) Derecognition of financial instruments

The derecognition of a financial instrument takes place when the Scheme no longer controls the contractual rights that comprise the financial instrument, which is normally the case when the instrument is sold, or all the cash flows attributable to the instrument are passed through to an independent third party.

(o) Application of Accounting Standards

Australian Accounting Standards that have recently been issued or amended but are not yet effective have not been adopted for the annual reporting period ending 30 June 2008:

(ii) Other Key Management Personnel

In addition to the Directors noted above Portfolio Partners Limited, the Responsible Entity of the Scheme, is considered to be Key Management Personnel with the authority for the strategic direction and management of the Scheme.

(iii) Compensation of Key Management Personnel

No amount is paid by the Scheme directly to the Directors of the Responsible Entity. Consequently, no compensation as defined in AASB 124 "Related Party Disclosures" is paid by the Scheme to the Directors as Key Management Personnel.

Compensation is paid to the Responsible Entity in the form of fees and is disclosed in Note 10(c).

Notes to the Financial Statements (continued)

10. RELATED PARTY DISCLOSURES (continued)

(c) Fees

Portfolio Partners Limited provides investment management services to the Portfolio Partners Dividend Builder.

Transactions between the Portfolio Partners Dividend Builder and Portfolio Partners Limited result from normal dealings with the company as the Scheme's Responsible Entity. Portfolio Partners Limited is an Australian Financial Services License holder.

The Responsible Entity, Portfolio Partners Limited, receives all management fees that have been paid by the Scheme during the year. The Responsible Entity is entitled to receive a management fee of 0.60% (2007: 0.60%) of the total assets of the Scheme under the terms of the Constitution. The fees are paid on a monthly basis. Total fees paid to the Responsible Entity during the year for management of the Scheme were \$235,682 (2007: \$190,860).

(d) Related Party Transactions

Related parties

Transactions between the Scheme and the Responsible Entity during the year are outlined in note 10(c) above.

Transactions between the Scheme and other managed investment schemes also managed by the Responsible Entity consisted of the sale of units in the Scheme to related managed investment schemes, purchases of units in related managed investment schemes, and receipt and payment of distributions on normal commercial terms and conditions.

Transactions between the Scheme and other registered Schemes also managed by the Responsible Entity are outlined in note 10(e).

Terms and conditions of transactions with related parties

All related party transactions are made in arms length transactions on normal commercial terms and conditions. Outstanding balances for Responsibility Entity fees (\$18,898) and reinvestment of distribution (\$314) at year end are unsecured and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables.

(e) Investments

(i) *Related party investments of the Scheme*

The Scheme has no investment in the Responsible Entity or any Schemes for which Portfolio Partners Limited acts as Responsible Entity.

(ii) *Related party investments in the Scheme*

Portfolio Partners Limited holds interests in the Scheme as part of a Long Term Incentive Plan for the Directors and Employees of Portfolio Partners Limited. At balance date, Portfolio Partners Limited held 42,974 units in the Scheme.

The terms and conditions of the Directors' and Employees' holdings are consistent with all other unitholders of the Scheme.

11. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(a) Financial Risk Management Objectives, Policies and Processes

Risks arising from holding financial instruments are inherent in the Scheme's activities, and are managed through a process of ongoing identification, measurement and monitoring. The Scheme is exposed to credit risk, liquidity risk and market risk.

Financial instruments of the Scheme comprise investments in financial assets for the purpose of generating a return on the investment made by unitholders, in addition to derivatives, cash and cash equivalents, net assets attributable to unitholders, and other financial instruments such as trade debtors and creditors, which arise directly from its operations.

The Responsible Entity is responsible for identifying and controlling the risks that arise from these financial instruments.

The risks are measured using a method that reflects the expected impact on the results and net assets attributable to unitholders of the Scheme from reasonably possible changes in the relevant risk variables. Information about these risk exposures at the reporting date, measured on this basis, is disclosed below. Information about the total fair value of financial instruments exposed to risk, as well as compliance with established investment mandate limits, is also monitored by the Responsible Entity. These mandate limits reflect the investment strategy and market environment of the Scheme, as well as the level of risk that the Scheme is willing to accept, with additional emphasis on selected industries.

This information is prepared and reported to relevant parties within the Responsible Entity on a regular basis as deemed appropriate, including the fund manager, compliance manager, other key management personnel, Credit Committees, and ultimately the Board of Directors of the Responsible Entity.

As part of its risk management strategy, the Scheme uses derivatives and other investments, including share price futures to manage exposures resulting from changes in equity risks and exposures arising from forecast transactions.

Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

In order to avoid excessive concentrations of risk, the Scheme monitors its exposure to ensure concentrations of risk remain within acceptable levels and either reduces exposure or uses derivative instruments to manage the excessive risk concentrations when they arise.

Notes to the Financial Statements (continued)

11. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(b) Credit Risk

Credit risk represents the risk that the counterparty to the financial instrument will fail to discharge an obligation and cause the Scheme to incur a financial loss.

With respect to credit risk arising from the financial assets of the Scheme, other than derivatives, the Scheme's exposure to credit risk arises from default of the counterparty, with the current exposure equal to the fair value of these instruments as disclosed in the Balance Sheet. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but best represents the current maximum exposure at the reporting date.

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values. The Responsible Entity aims to minimise credit risk by incorporating credit quality and level of debt held by individual companies into investment decisions, thereby limiting any exposure to financial loss.

The Scheme holds no collateral as security or any other credit enhancements. There are no financial assets that are past due or impaired, or would otherwise be past due or impaired except for the terms having been renegotiated. The Scheme minimises its exposure to credit risk on derivatives by only trading with top-tier financial institutions and has limits on the level of instruments that it holds with each counterparty.

Risk concentrations of credit risk exposure

Concentration of credit risk is managed by counterparty, by geographical region and by industry sector.

The Scheme's investments in financial assets can be analysed by the following geographic regions:

	2008 \$'000	2007 \$'000
Australia	31,703	36,490
Total	31,703	36,490

An industry sector analysis of the Scheme's investments in financial assets is as follows:

	2008 \$'000	2007 \$'000
Consumer Staples	5,954	2,340
Consumer Discretionary	1,467	5,767
Financials	14,364	15,218
Industrials	2,616	4,082
Property Trusts	1,910	2,664
Telecommunications	3,969	3,687
Utilities	1,423	2,732
Total	31,703	36,490

Notes to the Financial Statements (continued)

11. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(c) Liquidity Risk

Liquidity risk is the risk that the Scheme will encounter difficulty in meeting obligations associated with financial liabilities. This risk is controlled through the Scheme's investment in financial instruments, which under normal market conditions are readily convertible to cash. In addition, the Scheme maintains sufficient cash and cash equivalents to meet normal operating requirements.

Maturity analysis for financial liabilities

Financial liabilities of the Scheme comprise trade and other payables, distributions payable, and net assets attributable to unitholders. Trade and other payables and distributions payable have no contractual maturities but are typically settled within 7 days.

Net assets attributable to unitholders are entirely payable on demand.

(d) Market risk

Market risk is the risk that the fair value or future cash flows for financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates, and equity prices. Market risk is managed and monitored using sensitivity analysis, and minimised through ensuring that all investment activities are undertaken in accordance with established mandate limits and investment strategies.

Share price futures may be used by the Scheme to hedge against adverse price movements in the value of financial assets.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Scheme has established limits on investments in interest bearing assets, which are monitored on a daily basis. The Scheme may use derivatives to hedge against unexpected increases in interest rates.

The Scheme's exposure to interest rate arises from cash and cash equivalents. As the Scheme maintains minimal investments in cash and cash equivalents, the exposure to interest rate risk is considered to be immaterial.

11. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(d) Market risk (continued)

Equity price risk

Equity price risk is the risk that fair value of equities will fluctuate because of changes in market prices, whether those changes are caused by factors specific to the individual stock or factors affecting all instruments in the market. Equity price risk exposure arises from the Scheme's investment portfolio.

The effect on the net assets attributable to unitholders and operating profit before distribution due to reasonably possible changes in market factors, as represented by the equity indices, with all other variables held constant is indicated in the table below.

Accounting Assumptions-Variability of interest rates

The sensitivity illustrates the effect on the net profit attributable to unitholders from a reasonably possible change in the benchmark index based upon the Responsible Entity's internal assessment over the next financial year.

Index	2008		2007	
	Change in equity price %	Effect on net profit attributable to unitholders \$'000	Change in equity price %	Effect on net profit attributable to unitholders \$'000
ASX 200 Industrials	10 / (15)	3,170 / (4,755)	29.23	1,468

12. FAIR VALUES

The Scheme's financial assets and liabilities included in the Balance Sheet are carried at their fair value as disclosed by class of financial assets at Note 5 or at amounts that approximate their fair values, other than net assets attributable to unitholders as disclosed in Note 7(b).

Refer to Note 2 for the methods and assumptions adopted in determining fair values of investments.

13. SEGMENT INFORMATION

The Scheme operates in one business segment, being investment management. The Scheme also operates from one geographic location, being Australia, from where its investing activities are managed. Revenue is derived from dividends, distributions and interest.

14. COMMITMENTS AND CONTINGENCIES

No commitments and contingencies have arisen for the year ended 30 June 2008.

Notes to the Financial Statements (continued)

15. EVENTS AFTER THE BALANCE SHEET DATE

During September 2008, Portfolio Partners will change its company name to Aviva Investors Australia, and the Responsible Entity will also change to Aviva Investors Australia. As a result, the Scheme will be called the 'Aviva Investors Dividend Builder'. These changes will not impact the Scheme's operations.

Between the balance date and the date of approval of this financial report, certain markets to which the Scheme has investment exposure moved significantly. Investment markets throughout the world remain volatile as a result of the so-called 'credit crunch' and this has had a considerable impact on the performance of the domestic equity and fixed interest markets.

The Scheme's exposure to these events continues to be monitored daily and is not expected to have a material impact on the Scheme's asset valuations. Movements in markets are reflected on a daily basis in unit prices.

There has been no matter or circumstance that has arisen since the end of the financial year that has significantly affected, or may significantly affect, the Scheme's operations in future financial years, the results of those operations or the Scheme's state of affairs in future financial years.

Director's Declaration

In accordance with a resolution of the Directors of Portfolio Partners Limited, the Responsible Entity, I state that:

In the opinion of the Directors:

- (a) the financial statements and notes of the Scheme are in accordance with the Corporations Act 2001, including:
 - i. giving a true and fair view of the Scheme's financial position as at 30 June 2008 and of its performance for the year ended on that date; and
 - ii. complying with Accounting Standards and the Corporations Regulations 2001; and
- (b) there are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable; and
- (c) the financial statements are in accordance with the provisions of the Scheme's Constitution.

On behalf of the Board
Portfolio Partners Limited

Anthony Burrill
Director of Portfolio Partners Limited

Independent auditor's report to the members of Portfolio Partners Dividend Builder

We have audited the accompanying financial report of Portfolio Partners Dividend Builder, which comprises the balance sheet as at 30 June 2008, and the income statement, statement of changes in net assets attributable to unitholders and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration.

Directors' Responsibility for the Financial Report

The directors of Portfolio Partners Limited (ABN 85 066 081 114) ("the responsible entity") are responsible for the preparation and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2, the directors also state that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards and International Standards on Auditing. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

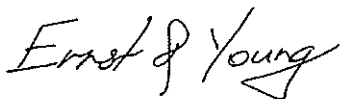

Independence

In conducting our audit we have met the independence requirements of the *Corporations Act 2001*. We have given to the directors of the Fund a written Auditor's Independence Declaration, a copy of which is included in the directors' report.

Auditor's Opinion

In our opinion:

1. the financial report of Portfolio Partners Dividend Builder is in accordance with the *Corporations Act 2001*, including:
 - i giving a true and fair view of the financial position of Portfolio Partners Dividend Builder at 30 June 2008 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.
2. the financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.
